About This Manual

The *Master Index* provides an index for the most commonly used manuals in the Internet Express documentation set. Manuals with index entries in the *Master Index* are listed in Table 1.

Audience

This manual is for anyone who needs to access information about Internet Express for Tru64 UNIX. It can help you find a specific topic in the documentation set by pointing you to the location in the manual where the topic is discussed.

Conventions

In the PostScript and Portable Document Format (PDF) versions of the *Master Index*, each master index page reference is preceded by an abbreviated manual title. For example, the following entry points to page 3-2 in the *Administration Guide*:

system
rebooting, *AdminGuide* 3-2

Table 1 maps the abbreviated title for each manual to its complete title.

In the online version of the *Master Index*, the abbreviated manual title appears as a hot link. Clicking on this link takes you to the actual location of the information in the manual.

Table 1: Manual Title Abbreviations

Abbreviation	Manual Title
ReadMe	<i>Read This First</i>
InstallGuide	<i>Installation Guide</i>
AdminGuide	<i>Administration Guide</i>
InternetMonitor	<i>Internet Monitor Administrator's Guide</i> ^a
WebServerDoc	<i>Secure Web Server Administration Guide</i> ^b

^aThis manual is added to the documentation bookshelf when Internet Monitor software is installed.

^bThis manual is added to the documentation bookshelf when the Secure Web Server software is installed.

Reader's Comments

HP welcomes any comments and suggestions you have on this and other Tru64 UNIX manuals.

You can send your comments in the following ways:

- Fax: 603-884-0120. Attn: UBPG Publications, ZKO3-3/Y32.
- Internet electronic mail: `readers_comment@zk3.dec.com`

A Reader's Comment form is located on your system in the following location:

```
/usr/doc/readers_comment.txt
```

The Tru64 UNIX Publications group cannot respond to system problems or technical support inquiries. Please address technical questions to your local system vendor or to the appropriate HP technical support office. Information provided with the software media explains how to send problem reports to HP.
